c. Total Property Area (ha): 10 ha (approx.)

d. Address / Location: Vic Park Tunnel Project Corridor

e. City or District Council: (refer section 1.1.1 Assessment of Environmental Effects) Auckland City Council

f. Operation / Development Name: (if different from the Applicants name)

g. Contaminants are sourced from:  Sewage pumping station  Sewage treatment plant

(please tick one)

Industrial premises  Commercial premises

Domestic / Household  Piggery

Other (specify): Reclamation & historic activities

Where discharge is from industry, describe the type of industrial process:

Refer to Assessment of Contamination

h. Map Reference of Contaminant Source: R11 835657 - R11 815669 (NZMS 260)

(Use NZMS 260 series [1:50,000] or NZMS 271 Series for urban localities [1:20,000] eg: R11:556789)

**7. Discharge Point Details**

a. If the discharge point is not on the property above, please indicate:

Name of Property Owner: Refer to Assessment of Environmental

Address of Property: Effects and Assessment of

Legal Description: Contamination

b. Map Reference of the Discharge Point: see above

(Use NZMS 260 series [1:50,000] or NZMS 271 Series for urban localities [1:20,000] eg: R11:556789)

c. Contaminants are discharged:  into water  onto land  into land

d. If the discharge is into a surface water body provide its name, or if unnamed the body it is a tributary of. Name: Tributary of: River Number (Office Use Only)

e. Is the discharge point in a Coastal Marine Area (see ARC Regional Plan-Coastal)?  Yes  No

## 8. Discharge Volume Details

- a. Maximum Flow Rate: 3.5 - 35 (litres per minute)
- b. Maximum Daily Flow: 6 - 50 (cubic metres)
- c. Estimated Annual Flow: 900 - 9000 (12 months) Where applicable
- d. Frequency of Flow: continuous times per day, or \_\_\_\_\_ times per month
- e. If the flow is seasonal, provide details (eg: December to March): n/a

## 9. Supporting Information (which must be provided and should include the following)

- a. A list of the names and addresses of all property owners/occupiers adjacent to and/or immediately downstream of the discharge point and any other party who may be affected by the discharge, and one signed written approval form for each name on the list (*a form which may be copied for use is attached to this application*).
- b. An accurate plan, maximum size of A3 (42cm x 30cm) drawn to scale, showing the location of the site, the discharge point, and the neighbouring properties listed in 9(a) above.

c. A report and plans which detail:

Tick if enclosed

- Existing works (unless already supplied with a previous application)  n/a
- Works to be carried out
- Type of treatment facility (including technical specifications)
- Standard of the proposed discharge quality
- The effects of the proposal on the environment (refer to 10 below)
- Any additional information which could assist the public and the Council in assessing the proposal

**Note:** Guidelines for the design, installation and operation of on-site disposal of domestic wastewater from households and institutions are provided in *Volume 2 of Auckland Regional Water Board Technical Publication No.58*, reference copies of which may be viewed or purchased at the Regional Council.

## 10. Assessment of Effects on the Environment

The Fourth Schedule of the Resource Management Act, 1991, (RMA), provides a comprehensive list of matters that should be included in an assessment of effects on the environment. The applicant is advised to discuss this requirement with the appropriate staff at the Auckland Regional Council. The Fourth Schedule is reproduced below.

### FOURTH SCHEDULE

1. **Matters that should be included in an assessment of effects on the environment** - Subject to the provisions of any policy statement or plan, an assessment of effects on the environment for the purposes of section 88(6)(b) should include—
- a. A description of the proposal:
  - b. Where it is likely that an activity will result in any significant adverse effect on the environment, a description of any possible alternative locations or methods for undertaking the activity:
  - c. *Repealed, as from 7 July 1993, by s 225 Resource Management Amendment Act 1993 (1993 No 65).*
  - d. An assessment of the actual or potential effect on the environment of the proposed activity:
  - e. Where the activity includes the use of hazardous substances and installations, an assessment of any risks to the environment which are likely to arise from such use:

Fourth Schedule continued from previous page

- f. Where the activity includes the discharge of any contaminant, a description of—
  - i. The nature of the discharge and the sensitivity of the proposed receiving environment to adverse effects; and
  - ii. Any possible alternative methods of discharge, including discharge into any other receiving environment:
- g. A description of the mitigation measures (safeguards and contingency plans where relevant) to be undertaken to help prevent or reduce the actual or potential effect:
- h. An identification of those persons interested in or affected by the proposal, the consultation undertaken, and any response to the views of those consulted:
- i. Where the scale or significance of the activity's effect are such that monitoring is required, a description of how, once the proposal is approved, effects will be monitored and by whom.

2. **Matters that should be considered when preparing an assessment of effects on the environment**

- Subject to the provisions of any policy statement or plan, any person preparing an assessment of the effects on the environment should consider the following matters:

- f. Any effect on those in the neighbourhood and, where relevant, the wider community including any socio-economic and cultural effects:
- g. Any physical effect on the locality, including any landscape and visual effects:
- h. Any effect on ecosystems, including effects on plants or animals and any physical disturbance of habitats in the vicinity:
- i. Any effect on natural and physical resources having aesthetic, recreational, scientific, historical, spiritual, or cultural, or other special value for present or future generations:
- j. Any discharge of contaminants into the environment, including any unreasonable emission of noise and options for the treatment and disposal of contaminants:
- k. Any risk to the neighbourhood, the wider community, or the environment through natural hazards or the use of hazardous substances or hazardous installations.

11. **Declaration**

- a. I hereby certify that to the best of my knowledge and belief, the information contained in this application is true and correct.
- b. I undertake to pay all actual and reasonable costs incurred by the Auckland Regional Council associated with the processing of this application.
- c. I have enclosed the necessary information required in support of my application as noted in section 9 above (*including written approvals from affected parties*).
- d. I have attached the required deposit fee payment with this application

Signature of Applicant or Agent:

*R. Hancy*

Date: 31/3/06

Name (in block capitals):

RICHARD HANCY

Designation:

MANAGER

(eg: Owner, Manager, Consultant, etc)

Note

Please read all of the information accompanying this application before completing this form, including the booklet "Applying for a Resource Consent". All units used should be metric. Please ensure that the form is signed on this page when completed and that the appropriate deposit fee required is submitted with your application.
